WHAT LEADERS SAY ABOUT THE SERIES

THE VICTOR.

"Throughout the entire series there was not even a small dispute between the two teams. Manager Jennings has a great team but I think the Chicago team is the greater. Our team is the greatest that I ever saw on a baseball field. I firmly believe that no team in the world could have beaten us with the kind of ball we played during the world championship series."-FRANK CHANCE, Manager of the Chicago World's Champions.

THE VANQUISHED.

"We were beaten because the Chicago team played better ball. I freely admit that our opponents played better baseball than we did. But I will not admit that they are a better team. Detroit did not play the game they are capable of. There was not the old-time Detroit dash and ginger in their work, and they did not measure up to their full ability, either at the plate or in the field."-HUGH JENNINGS, Manager
